*These flights are subject to a fuel surcharge, which is not included in the hourly rates.

The fuel surcharge is \$4.00 per gallon times the burn rate of the selected aircraft.

A-Star burn rate is 50 Gal/Hr **(\$200.00 per hour)**

EC120B burn rate is 35 Gal/Hr **(\$140.00 per hour)**

480B burn rate is 25 Gal/Hr **(\$100.00 per hour)**

Transient airport fuel pricing is usually higher than base pricing. Any pricing over \$5.00 per gallon will be added to the current surcharge rate. Surcharge is subject to change as fuel prices fluctuate.

1 Hour minimum flight time. 1 start per flight hour for the AS350, EC120, & 480B. Additional turbine starts are \$75.00 each.

- All time is taken from the Flight Hobbs meter in the aircraft. Flight Hobbs time runs from engine start to shutdown.
- All time starts and ends at our main operations base located on KEFD.
